AN IMPROVEMENT IN THE MAR-KET FOR TROTTING STOCK. The Old Gelding Kene F., Winner of the 810,000 Flower City Stakes. Sells for 81,500 Shuts Pays \$1,100 for a Broad Marc-Miss Bowerman to Go to Germany

There were not so many high-class horses among the offerings at W. B. Fasig & Co.'s sale of trotting stock at Madison Square Garden yesterday and the average price secured was days. The tone of the market remained strong up to the close of the sale last night, however, and with few exceptions the good horses sold for good prices. For the first time in three years nearly every consignor received more than he had expected for his trotters, and everybody in the trotting fraternity who attended the Fasig sale voted it the most encouraging sign of the times that has been seen in the horse

The consignment from C. F. Emery's Forest City Farm, near Cleveland, was the largest of the day, but many of the animals were unde-veloped youngsters, and they did not fetch very high prices. San Jak, the star of the lot, was sick at the American Horse Exchange and unfit to sell. He has a record of 2:19%, and these who saw him trot last fall say that he can go in 2:12. Suzal, a green mare, six years old and a full sister to Saboya, 2:19); brought the best price of anything in the Emery collection, Thomas Howard of Brooklyn paying \$1,000 for the daughter of Nagget. It is said that she can show a 2:15 clip on the track, John H. Shultz bought two of Mr. Emery's

that she can show a 2:15 clip on the track, John H. Shultz bought two of Mr. Emery's trotters, one of them the chestnut geiding Gorston, 2:254, by Nugger, and the other a well-bred young mare by Paton. Mr. Simila also bought the tall chestnut pacing mare Eliza K. 2:114, full sister to the trotter (e.g., 2:154, by Robert Rysdyk, 2:133, Mr. Shults will send her to his breeding farm at Port Chester, to be used as a brood mare. The mare made her record at Portland, Me., last season, winning the second, third, and fourth heats of her race in 2:113, 2:114, 2:114, 2:114, 3:115, One of the notable horses sold yesterday was the chestnut trotting geiding Keno F., 2:159, winner of the Flower City \$10,000 stake at Rochester in 1801. The horse is now thirteen years old and has been campaigned for several years, but he looked as fresh as a four-year-old yesterday, showing more dash, style, and trappy action than almost any horse sold during the week. At \$1,500 he was knocked down to Charles Lutz, who bought the old campaigner to drive on the road in Brookiyn. Trainer J. F. Nichols of Parkville will probably train Keno F. with a view to trotting him a few races next season. The horse gained his record last year in the hands of Charles A. Thompson, the lower reasman, who sold to English parties the four fast performers that were recently shipped abroad under fictitious names.

Charles Fleischmann of Berlin, Germany, was one of the largest buyers yesterday, but his purchases were brincipally colts and fillies of medium private sale the trotting mare Miss Howerman, \$2:214, by Wilton, that was shown at the last National Horse Show in double harness with Bermuda Girl, 2:214, Weich sold to Fleischmann at private sale the trotting mare Miss Howerman, \$2:218, by Wilton, that was shown at the last National Horse Show in double harness with Bermuda Girl, 2:214, Weich sold to Fleischmann at private sale the trotting mare Miss Howerman, \$2:218, by Wilton, that was shown at the last National Horse Show in double harness with Bermuda Girl,

A SIX-CLUB CIRCUIT.

Atlantic League Will Not Take in Any More Cities, The Atlantic League of Professional Baseball Clubs held a special meeting yesterday after-noon at the Fifth Avenue Hotel. President Sam Crane presided, and the following delegates were present: Jersey City, Robert Jordan and Arthur A. Irwin; Newark, George E. Ellis; Paterson, W. S. Wright; Wilmington, D. A. Long; Hartford, William Barnie; New Haven,

Sullivan. Billy Barnie was appointed on the Schedule Committee in the place of A. C. Buckenberger, and the committee was ordered to report to the next meeting, to be held here on Feb. 26. It was decided that the championship season should open on April 18, and the schedule should consist of 120 games for each club, sixty at home and sixty abroad. Each club will make four trips, playing three games in each of the

The question of increasing the circuit from ix to eight clubs was considered at length. Applications for franchises were received from Troy, Albany, Meriden, Danbury, and Water-But after due deliberation these places were thought to be too weak financially for the league, and it was decided finally to keep the

were thought to be too weak financially for the league, and it was decided finally to keep the present circuit of six clubs. This caused considerable faultholing among disappointed applicants in the corridors, for it was argued that with an eight-club circuit the league would be more evenly balanced. But the delegates in Parlor it were serene, and said their circuit would prove a good bread winner. Each club was said to have posted a guarantee of \$5.00 to inish the season. The dispute between New Riven and Paterson over Players Royle and Killacky was finally adjusted by the assignment of Boyle to New Haven and Killacky to Paterson. Each player was fined \$50 for signing with both clubs.

The umpires will be appointed at the next meeting. The most prominent candidates mentoned for berths are Billy Quinn, Jerry Sullivan, Charley Jones, and Herman Doescher, all of whom have been competent National League umpires at different times.

The delegates adjourned at about 7 o'clock, festing elated over the prospects for the coming season. The Jersev City Club has practically decided upon new grounds within easy reach of the heart of the city, and a grand stand seating 2,000 persons, together with bleachers for 5,000 more, will be constructed. It was said that the diffurences between W. S. Wright and Dave Boyle, the owner of the only ground in Paterson, would be pated on a solid basis there this week.

Barnle reported that the outlook in Hartford

thing would be placed on a solid basis there this week.

Barnie reported that the outlook in Hartford was most promising, and that he had already engaged some good players. Long has secured twenty players, from whom he will pick the Wilmington team. Ellis has a lot of Western League stars to put into Newark, and the surplus players of the New York League team will be placed in Jersey City. Ted Sullivan has a number of Texas League stars to represent New Haven, and, with "Yale" Murphy to act as captain, he is confident of making a good showing.

The De Sales Baseball Club of the St. Francis De Sales Lycoum has reorganized for the season with a strong team. New uniforms and equipments have been purchased, and arrangements have been made for the men to practise indoors until the opening of the outdoor season. The club wishes to hear from all uniformed clubs in the vicinity playing saturday afternoon, Sunday, and holiday games; out-of town clubs offering a suitable guarantee will receive the preference. The club is negotiating for a near-by enclosed ground on which to play home games. The opening game will probably be played on Sunday, April 12. The Bolling Springs Men Defeat the New Utrecht Team at Targets.

The second of the series of matches between the Boiling Springs Fishing and Gun Club of Rutherford, N. J., and the New Utrecht Gun Club of Brooklyn was decided on the g of the Bolling Springs Club, at Rutherford, yesterday afternoon, the result being a victory for the home club by a score of 380 to 372. A high wind prevailed throughout the match, making the percentage of breaks quite low. The conditions were twenty-five men on each team, twenty-five artificial targets each, known trans and unknown angles. Only twenty-one men of the visiting club were present, however, and the match was shot off with that number. Capt. Money, H. H. Hegeman, Platt Adams, Allen

match was shot off with that number. Capt. Money, H. H. Hegeman, Platt Adams, Allen Willig, Pettit, and Fessenden did the best shooting for the New Utrechts, while H. Gaughan, J. C. Blauvelt, C. C. Hibbard, Neaf Abgar, Eddie Collins, Outwater, Huck, McAlpin, and C. Collins held up the Boilling Springs'end nobly. The scores follow:

The two-mile handicap race furnished plenty of excitement for a large crowd at the Harlem Ice Palace skating rink last night. The race resulted in favor of Samuel Phillips with a handicap of 230 yards. Sweezey was second with a handicap of 230 yards and B. Phillips was third with a habdicap of 330 yards. Letts was the scratch man. MAHER NAMES NEXT PRIDAY.

What Fitzelmmone Will Do Will Not Be Known Until To-morrow. Et. Paso, Feb. 15.-Buck Connelly, the righthand man of Hughey Quinn, Maher's manager, wired the United Press at noon to-day from Las

Cruces as follows: Physicians here say Maher's eyes will not be well until Friday. Maher says he will fight that day cer-tain. He thinks Fitzelmmons ought to agree to this. In reply Julian, Fitzimmons's manager, said that he would give his answer at noon on Monday, and not an hour earlier.

Connelly, in a statement made last night, said:

"If Fitzsimmons attempts to pull down our forfeit on Monday, as is intimated, he will be fooled. Should Julian and his fighter take such unfair advantage of our man, who is temporarily blind and in great pair, and claim a championship by such methods. I shall save our ter whether he be as blind as a bat, on Monday, the limit set by Julian for a fight. My man will be on the platform and within the ropes for our

the limit set by Julian for a fight. My man will be on the platform and within the ropes for our money, and if Mahor is whipped I trust the people of the country will understand that it is not Peter's fault, but Fitzsimmons's greed.

"The latter is in a hole here. He owes Dan Stuart \$1,500. The latter posted his forfeit of \$1,000, and he has not a penny more on the fight than he had at Hot Springs. I don't care about our \$1,000 forfeit, but I don't want those fellows to get it on such an unfair deal. I am feeding thirteen men at Las Crucea, and am aiready out \$1,000 on the game. I hope Peter will be in shape by Monday, but I have the word of Dr. White that his eyes will not be open and clear for a week at least."

A fusilade of shots at midnight last night set El Paso street wild. Joe Copeland of Dallas, who works in Dan Stuart's gambling house there, and Bill Quarles of Greenville, Tex, got into a brawl in front of Steryan's saloon, and Quarles drew his gun and struck Copeland over the head with It. Copeland also drew a gun and began shooting.

Quarles put two bullets into Copeland, one in his left shoulder and another in his left arm. Hill Ferry, the Texan who captured the noted outlaw Hill Cook, was standing by, and, with another of the Rangers, started after the combatants, who had by this time emptied their revolvers. Quarles was captured in the "Wigwam" saloon and Copeland near the Santa Fé office. Though twelve shots were fired and there were dozens of persons in the street, no one except Copeland was hurt. Quarles was locked up.

Walcott and "Bright Eyes" weighed in at noon to-day. Walcott barely tipped the beam at 13946 pounds, while "Bright Eyes" was exactly at 13845 pounds. The report is that they are to meet next Tucaday.

The match between Peter Burns and Billy Smith is off. Burns's eyes are in poor shape, and he will be in the elector's care for a week or more.

There is a wailing and gnashing of teeth among the white and colored nuglists matched for the minor contests, and they are beginning to make themselves heard. With one or two exceptions they are training down to the finest point they can stand, and are anxious to be called into action and become foot loose once more. George Dixon spoke for the aggregation this morning when he said: "I cannot keep on this way much longer. I'm down as fine as I need to be, but I cannot keep stationary. It's either loss or gain, and I want by wantether. Resides that I'm hunger and I wanted the down as fine as I need to be, but I cannot keep stationary. GREAT YACHTING AREAD.

The Atlantic V. C. Offers 89,000 in Prize If the hopes of the officers and members of the Atlantic Yacht Club are realized this will be one of the biggest yachting seasons on rec-ord, even if there is not an America's Cup race, for they intend to offer prizes valued at about \$9,000, which is the largest amount of money ever offered in a single season by one club.
When George J. Gould, the owner of the crack

single sticker Vigilant and the steam yacht Atalanta, was elected Commodore of the club last year, the stock of the Atlantic Club began to rise, and from a purely local organization, within a very few months, it progressed by leaps and bounds into the very front rank of clubs devoted to this branch of sport.
At the annual meeting of the club at the Wal-

dorf last week Commodore Gould, in a speech which was fully reported in THE SUN at the time, stated that, owing to previous engage-ments which could not be set aside, he had not been able to represent or push the club as much as he could have wished, but that this year he as he could have wished, but that this year he would do all he could to help the club along, and incidentally he requested the coceration of the other members to do all in their power to promote the club's interests. Commodore Gould's remarks were received

with the utmost enthusiasm, particularly as he donated \$1,500 for two cups to be raced for by sloops and schooners under any conditions named by the Regatta Committee. Commodore Gould's example was followed by a liberal offer from Vice-Commodore F. T. Adams of the schooner Sachem for two cups valued at \$500. Rear Commodore J. H. Hanan also offered a \$300 cup, and A. C. Washington one valued at \$250. One or two smaller prizes, together with a liberal appropriation from the club, brings the total value of the trophies offered up to \$8,965 in cash.

siberal appropriation from the club, brings the total value of the trophies offered up to \$8,005 in cash.

All of this is to be placed in the bank, the cups bought and paid for, and they will be on exhibition before the racing season opens, so that the owners of racing yachts will know just what they are going to race for before they start.

Heretofore it has been the custom of the majority of yacht clubs to buy the prizes some three or six months after they have been won. Now yachtsmen will know just what they have to race for before they start.

Yesterday afternoon the club's Regatta Committee, consisting of John It. Billss. H. J. Gielow, George McNulty, Col. David E. Austen, and W. L. Gerrish, together with Vice-Commodore F. T. Adams and Fleet Captain T. L. Watson, who represented Commodore Gould, met at the Democratic Club, 617 Fifth avenue, to arrange a racing programme for the coming season. While the majority of eventwhere arranged to the satisfaction of all, no decision was arrived at in the matter of the Gould cups. Commodore Gould has offered a \$1,000 cup for schooners and a \$500 cup for sch

nanges, was finally agreed to:
June 6—Ladjes' day. First race for two \$250 cups,
June 6—Ladjes' day. First race for two \$250 cups,
June 10—Second race for Adams cups, also a special
see for the new 30 footers for a \$250 cup offered by
C. Washington.
June 10—Annual regata, open to all. Prizes in all
asses valued at from \$25 up to \$150 in plate.
July 3—Renderyons at Larchmont barbor for the

ube's annual cruise. July 4 – Larchmont regatta. July 5 – Cruise staria. Informal sail to Black Rock. onn. July 6 - Race to Morris Cove by way of Long Island

After the Shelter Island ceremonies are over the freet will race to New London, then to Morris Cove, and finish at Oyster Bay. During the cruise the value of the prizes will be based on a progressive scale, the most expensive ones being awarded on the runs back to Oyster Bay.

Rear Commodore J. N. Hanan of the steam yacht Embla has offered a \$200 cus for the sloop winning the greatest number of squadron runs. In addition to the above it has been decided to offer the \$500 cup, which ex-Commodore Baaks tried in vain to get the big single-stickers to race for in 1803, for some class during the cruise. It is also announced that the club will have a special boat for the committee and press during the cruise. A fall regatta is also among the possibilities.

THE RIVIERA REGATTAS.

Britannia Is Of, and the Prince of Wales Boston, Feb. 15 .- The Globe's yachting cor-

respondent writing from the Clyde under date Our yachting world, like our other sporting

worlds, has been overcast by the thunder clouds that have been darkening Europe. A chance of the silver lining is the Riviera regattas, for which the Britannia has sailed. When she arrives all safe at Nice, the Prince of Wales will join her, and we all hope that in this instance he may prove the Prince of Peace. His cousin. the Emperor of Germany, has thrown up the charter of the steam yacht. White Heather, and

the Emperor of Germany, has thrown up the charter of the steam yacht White Heather, and has evidently no desire to be at Nice and be recognized as another Prince of Peace, or join in any of the champagne festivities which may settle the Armenian and other troublesome international difficulties.

"Admiral Victor Montangu, who may well be described in yachting parinace as the Fighting Admiral," will take his slora. Carina to the Riviera, and heaven help the regatta committee which does not understand its business. The Admirals belongs to the rare old lot of British Admirals one of which had been long in command of the Mediterranean squadron. On the close of his command he arrived in the English Channel when an easterly gale was blowing, with the stray or spindrift blowing like sleet about and the easterly mist as thick as a hedge. 'Thank heaven,' said the old Admiral, when he got his head above the companionway, 'we've at last got quit of these blanken blue skies.'

"Mr. Ogden Goelet's new twenty-rater Samphire, designed and built by Sibbick of Cowes, has just been launched. After some trials in the English Channel she is to have her bronze fin and built beel unshipped and he put on board a steamer for Marseilles. So many small raters are also bound for the Mediterranean that it is proposed a steamer of large tonnage should be built in the Clyde with special requirements for this new traffic, involving the unshipping of some deck beams to permit the hold to be stered with small racing craft. Samphire will have a chance with

Over forty entries were received for the cruise on he night of the meeting, including the Kangaros, toyal, Lapwing, Heedless, Diodis, Bess Alisis, Mary A., and Isis. When the fleet reaches Shelter Island they will disband, though some of them will indule in an imprompturace back to Gravesend Ray. In addition to the above it was announced that course of lecture, would be given in the shore clubules at Gravesend Ray on the dementary branches of navigation, while the entertainment committee of navigation, while the entertainment committee has arranged a series of seelables, and musicales. A dinner will be held at the Clarendon Harel on March by end the club's annual regatfa will be sailed on June 13. March who the club's annual regatta will be sailed on June 15.

The officers of the club have found it necessary to find a deeper anchorage ground on account of a number of beats in the fleet drawing so much water, and it is not at all improbable that a site will be selected on the Norton's Point side of the bay near the new rea Gate Club.

The match was interesting only during the first set. After that the brilliant play of the New Yorker seemed to rattle the Boston man and he all but went to pieces.

There was a good crowd present, and De Garmendia's marvellous work excited them tremendously. In the second set the best Hunnewell could do was two games. In the third he was even worse off, as he was near being shut out. The three sets went to De Garmendia thus:

18-14, 15-2, 15-1.

At the finish a four-handed game was made up between De Garmendia and George Standing and H. H. Hunnewell, Jr., and Tom Pettitt. The New Yorkers conceded five aces to the Boston men and won out. The score was 15-10, 16-10, 8-15, 9-15, 18-14. The Boston men, by extraordinary play on the part of Pettitt, were able to pull out with two sets to their credit, and they considered themselves very lucky at that.

DUNEATER'S CASE IN ENGLAND. Sporting Life Says " You See We Know Him, American So Not."

The Sporting Lafe of London, in commenting on the special committee's decision in the Dunraven case, in its issue of Feb. 5 says:

"A high tribute of praise must be given to the New York Yacht Club Committee for the im-partial and business-like way in which they have thrashed out the Valkyrie and Defender question raised by Lord Dunraven. Our American contemporary, the New York Evening Post (quoted last week), erred, seemingly, in the verdict; at any rate, it officially goes dead against his lerdship on all points. Upon the evidence before them I have ne doubt the committee were constrained to put Lord Dunraven out of court, and nobody on this side the Atlantic doubts their bona fide in the slightest. But in my opinion, and that of very many others, nothing but the immediate remeasurement of the Defender-as asked by Lord Dunravencould ever have set the matter at rest. One famous sportsman expresses his value of the report as just that of the paper upon which it is written. And, truth to say, this is the general feeling over here. The New York press is now clamoring for an apology from the

is the general feeling over here. The New York bress is now clamoring for an apology from the popular Earl, with the alternative of "being expelled from the New York Yacht Club," as one paper puts it. Let me tell them that if his one paper puts it. Let me tell them that if his lordship thinks any apology or explanation is due to his confrères of the N. Y. Y. C. he will unhestiatingly give it, but otherwise he will not trouble one tinker's cuss for all such inane threats or chatter emanating from unofficial quarters. Sportsmen all in the old country have every confidence in his lordship to do exactly the right time. You see we know him, and the Americans do not, which makes all the difference.

"From a sporting point of view, the whole affair is regretable, yet far from one to take the pessimistic side of the question so many appear to do. He the sequel of the incident what it may, why in the world should future contests for the America Cup be conspicuous by their absence. Other members of the Royal and New York Yachting Clubs yet, remain to throw down and take up the gauntlet thuswise, and surely sportsmen of the Old and New World are not going to act like a lot of quarrelsome schoolboys and pout awhile. The contention of one gentleman that any further challenge would be construed by Lord Dunraven as an insuit is the purest nonsense, and must have given his Lordship occasion for a right hearty laugh. Despite all sorts of pessimistic twaddle, convinced am I that this unfortunate affair will soon be forgotten, and on the principle of Sydney Smith's frank explanations with 'friends in cases of affronts,' international yachting amenities will speedily be resumed. But before another contest takes place arrangents should be made to bring off the same on neutral waters, where outside craft cannot break through and interfere. Mr. Whitaker Wright, an Australian gentleman, has informed the Yuchtsmen's Association that he will give 2100-cup or specie—as a prize to be sailed for in the Mediterranean during March next. We a

BACING AT NEW ORLEANS.

David, the Favorite, Wine the Handleap with Great Ease. NEW ORLEANS, Feb. 15 .- No better weather for outdoor sports could have been desired than ruled here this afternoon. The track was lumpy and heavy and only mudlarks proved equal to negotiating it. A handicap at seven and a half furlongs fell to that good horse David, who carried 115 pounds, and won with great case from Ondague, Constantine, and seven others. Albert S., at a good price, galloped away with the first race. Minnie Mackin, favorite in the second race, was well ridden by Tuberville, who laid in third place to the last quarter and then came away and was ridden out.

Demingo, after a long rest, came out in the third event, and, as the choice of the talent, won an impressive race. He was last of the party ending the first quarter, but he closed a big gap and won cleverly. In the fifth event, a 15 to 1 shot, Feedman, led from start to finish, the favorite, Jim Henry, cutting a poor figure. The last race of the day fell to Vida, who won cleverly from Marsten Pet, and R. THEY PREY UPON INVENTORS.

Men Whose Business It Is to Steal and Patent the Inventions of Others, As Thomas A. Edison watched the pumping of the air from a glass tupe in his laboratory a

day or two ago a man said to him: "You patent every little thing you discover, don't you, Mr. Edison?" "I do," said Mr. Edison. "And do you know why I do it?"

"I suppose you do it so you will resp the benefit of your discovery," was the reply. "I thought you'd say that," said Mr. Edison: "and I don't suppose you will believe me when I tell you it isn't so. But it isn't so. when I tell you it isn't so. But it isn't so, nevertheless. I discover a great many things that I would be very glad to give to the public for nothing, but I don't dare. I patent these things to save myself from defending law suits. There are a lot of sharks in this world who are continually on the lookout for new things, and when one of them hears of something new he bustles to the Patent Office to see if it is patented. If it isn't be claims it as an original discovery and files his claims it as an original turn right around and, like as not, begin a suit against the very man who invented the things for making or using it. The inventor will say for inaking or using it. The inventor will say the inventor. He is referred to the Patent Office, where he finds the official claim of original inventor. The fact that the papers are file. ventor.' He is referred to the Patent Office, where he finds the official claim of original invention. The fact that the papers are file long after he made his discovery does not he him, for all the other, man does is to hire at low to swear that he made the discovery month or two prior to the date the inventor claims. It sounds ridiculous probably, but it is a fact, that there are often races between the inventors and these sharks to reach the latent Office, the sharks having had early information about the inventor's discovery. There are many such races, and thousands of dollars depend on each one. What I say is litterally true. I patent things, and no doubt many other inventors patent things, just to save defending law suits."

The Rev. D. L. Schwartz Again Leads Over

LAKEWOOD, Feb. 15 .- The golf players were out in force to-day and the grounds presented a lively appearance. The weather was mild and the grounds were in excellent condition, the absence of a wind aiding the players in putting up good scores. In the play for the Converse Cup the Rev. D. L.
